

SCH

Single-Clip Machine

innovative · reliable · leading

poly-clip[®]
SYSTEM

- For all plastic and natural casings, bag and net closure
- Adjustable clip pressure
- Easy to operate
- Minimal physical effort
- Robust technique
- Mobile

Applications

The single-clip machine SCH is ideal for closing pre-cut casings, for portioning and for closing bags. Plastic, fibrous, collagen and natural casings from small diameters up to 120 mm can be closed with the SCH.

Advantages

- Manually operated – no electricity or compressed air required
- Easy to move – light weight
- Reproducible clip pressure adjustment for each type of casing
- Integrated cut-off knife
- Completely made of stainless steel
- Easy to clean
- Maintenance kit
- Two different types of closure by simply turning the W and V dies

Function and operation

The single-clip machine SCH is operated manually. It is easy to handle with minimal physical effort. The casing is gathered by a hand lever before the clip is applied.

Excess casing or bag ends can be trimmed with the integrated cut-off knife.

Technical Data

SCH 6210/7210	
Width:	200 mm
Depth:	360 mm
Height:	900 mm
Weight:	10 kg

Suitable clip sizes:

SCH 6210: S 625/628/632/638
 SCH 7210: S 735/740/744/747

Excess casing or bag ends can be trimmed with the integrated cut-off knife.

W-shaped "butt to butt" closures for natural casings.
 V-shaped "wrap around" closures for plastic casings
